

PRODUITS MEDICAUX TIBETAINS

I would like to introduce a new website that specialises in Tibetan Health Products. We distribute and retail beauty and health products from India from our base in Europe all over the world. This project is a collaboration between Tibetans, Indians and Europeans. We hope that you would all check out the website <http://www.tibethealth.com> and spread the word about it.

At the moment this website is available in English but soon we will be launching versions in German, Czech, Dutch and French. Please feel free to make any enquiries back at this address or use the Contact options on the website. We also excute bulk orders for other suppliers and we will be happy to help you with any requirements you might have.

Thank You Very Much For Your Time.

Sincerely

Shivdeep
